🎨 UI/UX GENERATION PROMPT — WORKFLOWZ LANDING PAGE

1. Product Context

Design a **dark-mode AI-powered learning platform landing page** for a product called:

WorkFlowz — Master workflows that make your work flow

The platform blends:

- AI tools
- learning workflows
- creator economy

The UI must feel:

- **technical but approachable**
- **modern SaaS + AI-native**
- **slightly futuristic but not cyberpunk**

---

2. Visual Style Direction

2.1 Overall Aesthetic

- Dark-first UI (not pure black, use deep green-tinted black)
- Neon-accent highlights (green as primary)
- Subtle gradients and glow effects
- Glassmorphism (very light, not heavy blur)
- Soft shadows (no harsh elevation)

Tone:
👉 “AI workspace meets productivity OS”

2.2 Color System

Primary Colors

- **Neon Green (Primary Accent)**
  - `#A3FF12` (main CTA)
  - Used for:
    - buttons
    - highlights
    - metrics
    - active states

Background

- Main background:
  - `#0A0F0D` (deep green-black)
- Secondary surfaces:
  - `#0F1A16`
  - `#121F1A`

Gradients

Use subtle gradients:

- Green → yellow glow (for CTA)
- Purple / orange / green (for workflow cards)

Text Colors

- Primary: `#FFFFFF`
- Secondary: `#A0B3AD`
- Muted: `#6B7F78`

2.3 Typography System

Font Pairing

Primary Font:

- **Sora** (or Inter if unavailable)
- Clean, modern, slightly geometric

Secondary:

- Inter (fallback for body)

Type Scale

Hero Title:

- 56–64px
- Weight: 700
- Tight line height (1.1)

Section Headers:

- 28–36px
- Weight: 600

Body Text:

- 14–16px
- Weight: 400

Labels / Tags:

- 12–13px
- Medium weight

Typography Style

- Slight letter-spacing on headings
- Clean hierarchy
- Avoid heavy paragraph blocks
- Keep lines short and scannable

---

3. Layout Structure

3.1 HERO SECTION

Content

- Small label:
  → “AI-POWERED LEARNING PLATFORM”
- Main headline:
  → “Master Workflows That Make Your Work Flow”
- Subtext:
  → Short, 1–2 lines explaining:
  learning → output → creator

CTA Buttons

Primary:

- “Explore Workflows”
- Bright neon green
- Glow effect

Secondary:

- “Start Creating”
- Dark button with green border

Stats Row

Display 4 metrics:

- 142+ workflows
- 12,000+ learners
- 38 creators
- 91% completion rate

Style:

- Horizontal layout
- Highlight numbers in neon green
- Labels muted

3.2 WHY WORKFLOWZ SECTION

Title:
→ “Learning That Creates Real Output”

Cards (4 total)

Grid layout (2x2)

Each card includes:

- Icon (minimal, soft glow)
- Title
- Description

Cards:

1. Executable Workflows
2. Visual Builder
3. AI Tutor
4. Dual Mode

Style:

- Rounded corners (16–20px)
- Dark card background
- Subtle border
- Hover: slight lift + glow

3.3 FEATURED WORKFLOWS

Header

- Left: Title
- Right: “View All”

Tabs

- Home
- Discover
- My Learning

Active tab:

- green underline or pill

Workflow Cards (Grid)

Each card includes:

- Gradient thumbnail
- Category tag (pill)
- Rating (stars)
- Title
- Description (2 lines max)
- Creator name
- Price

Card Style

- Rounded: 16px
- Hover:
    - slight zoom
    - glow border

3.4 CATEGORIES SECTION

Horizontal pill-style buttons:

- AI
- Business
- Design
- Coding
- Marketing
- Content Creation

Style:

- Rounded pills
- Outline style
- Active = green fill

3.5 FAQ SECTION

Accordion layout

Each item:

- Question
- Expand icon (+)

Expanded:

- Smooth animation
- Soft background highlight

3.6 FOOTER

4 columns:

- Brand
- Platform
- Resources
- Company

Minimal, clean, muted colors

---

4. Interaction Design

4.1 Hover States

- Buttons:
  → glow + slight scale (1.02)
- Cards:
  → elevate + border glow

4.2 Transitions

- Duration: 200–300ms

- Ease: ease-out

4.3 Micro-interactions

- CTA glow pulse (subtle)
- Tabs sliding underline
- Accordion smooth expand

---

5. Design Principles

- **Clarity over decoration**
- **Action-oriented UI**
- **Everything leads to interaction**
- **Visual hierarchy extremely clear**
- **No clutter**

---

6. Mood Keywords (for AI tools)

Use these keywords if tool supports style prompting:

- “AI SaaS dashboard”
- “dark neon minimal”
- “futuristic productivity UI”
- “clean developer tools aesthetic”
- “Notion + Linear + Vercel hybrid”

---

7. Constraints

- No overly bright neon spam
- No cyberpunk overload
- No heavy gradients everywhere
- Maintain readability at all times

---

8. Optional Advanced Enhancement (if tool supports)

Add:

- subtle animated gradient background
- cursor glow effect
- soft noise texture overlay

📖 INSTRUCTION · STEP 4 OF 6 · +20 XP

Design Conversation Flows

Map out the main conversation paths: 1. **Greeting flow** — How does your bot introduce itself? 2. **Happy path** — The ideal conversation 3. **Clarification flow** — When the bot needs more info 4. **Fallback flow** — When the bot can't help Sketch these flows mentally before proceeding.

WHY WORKFLOWZ

Learning That Creates Real Output

Executable Workflows

Not just reading — every workflow produces a real, usable output artifact.

Visual Builder

Drag-and-drop blocks to design interactive learning experiences in minutes.

AI Tutor

Get context-aware help at every step. The AI understands your workflow.

Dual Mode

Seamlessly switch between learning and creating — one platform, two experiences.
